ABS	Alpha-particle and beta-particle spectrometry session
AS	Alpha-particle spectrometry
BS	Beta-particle spectrometry
AIM	Aspects of international metrology
BRM	Benefits of radionuclide metrology
GS	Gamma-ray spectrometry
I	Intercomparisons
LL	Low-level radioactivity measurement techniques
LSC	Liquid scintillation counting techniques
MSRM	Measurement standards and reference materials
ND	Nuclear decay data session
RMLS	Radionuclide metrology in life sciences session
RMT	Radionuclide metrology techniques
SP	Source preparation techniques session
QA	Quality assurance and uncertainty evaluation in radioactivity measurements
